

Kinross Cycling Club

Club eBike Policy

The club recognises that eBikes are a relatively new and exciting development in cycling and are set to become more popular over the coming years. One of the clubs objectives is to encourage all aspects of cycling, and would therefore like to assure eBike riders that they are welcome to join any of our regular weekend and midweek organised rides, as well as the summer GP series of Time Trials. If competing in the GP series eBike riders will compete in a separate category.
