Hopefully these are the final results from another keenly contested Kinross CC event. Due to timing equipment set up problems our all singing & dancing / flashing lights starting clock was sending riders off at 45 second intervals instead of the normal one minute. This caused much confusion with riders missing their start slot, going out of sequence etc. After a lot of reworking times & start order I think its all sorted out now. Apologies are extended to all competitors and hopefully the above results represent a true record of what actually happened and that it didn't spoil your evening.
