KINROSS CYCLING CLUB

One Mile Sprint

Thursday 8th September 2011

The 8th and final event for 2011

On an overcast evening and with a favourable tail wind 19 riders turned out for the last event in this years Grand Prix. This years sprint was the first for the club and so a new record was going to be set. Congratulations to Donny for setting the benchmark of 2 minutes 1.87 seconds over the measured mile. That's an average speed of 29.54 mph! 'Doc' Roddy Pattison did enough though to retain his lead in the series and become our first ever GP winner.
Time keeper John M even managed to hand over timing duties, rushed back to the start and rode to post a very respectable time of 2min 10 seconds for fourth place.

A big thank you to Ken Ogilvie who once again did the honours as pusher off in chief.
