With only 16 riders turning out on this inaugural 25 mile time trial event, there were plenty of points up for grabs. Rain threatened for most of the event but I think everyone arrived back dry. Andy Bruce set a new course record (well the first one!). The time to beat is 1:02:48, an average of 23.89 mph. Commiserations to Ken Ogilvie who set a reasonable time despite a mechanical. Also a big welcome back to Alan Corsie, his first GP event of the season.
