Pre race prep. Getting it right yields great rewards.

What can you do in 0.3 of a second? Not a lot maybe. Well that was the difference between first and second place at the 2012 One Mile Sprint. It's the difference between missing a gear change, a flapping number not pinned down or even the increased drag from unshaven legs!
Yet again it was Andy Bruce who posted the fastest time with Donnie MacLeod missing out on the win by a whisker. And yet again Andy lowered a course record. This time by 9 seconds to 1m 52.9 secs.
The first 4 riders all went under last years course record so well done to Andy, Donnie, Paul Hutton and Stewart Herd.
A warm welcome to Fiona Crichton and Paul McBride on their first event with the club. There was another newcomer who we will see a lot more of next year. It was the new starting clock giving a professional edge to the start area. With its multi coloured flashing lights and countdown beeps it left the previous starter for this years events, Trev Keer, struck dumb in amazement.

Overall in the 2012 events, Andy Bruce wins the series with a maximum 400 points. Andy did this by winning 8 out of the 10 events on offer (its only the top 8 that count) In winning the series Andy also lowered (and holds) 5 course records out of the 7 different events on offer.

Subject to scrutiny by the event commissaries the podium places for the 2012 KCC Grand Prix series are .

Gold	Andy Bruce	400 pts
Silver	Donnie MacLeod	387 pts
Bronze	Roly Kitson	369 pts

Its all hands to the pumps now for the road race on Sunday. But we hope to bring you a more comprehensive round up of the series some time soon.

John M - time keeper

Trevor Keer – ex starter

(well he just stood there dumbstruck while our shiny new clock did all the work with its dazzling array of coloured lights and sounds to match. The relentless march of technology. No doubt the P45 is in the post!)
